Belgaum Branch, BELGAUM

Subject: Permission to Supply Electric energy outside the area of supply : Amalgamated Elecy. Co.,(Belgaum) Ltd.

Dear Sirs,

With reference to letter No.F.42/50, dt. the 5-8-50, from the Collector of Belgaum, on the above subject, I am directed to advise you to submit an application for the extension of the area of supply to Angol Mal under Section 4(3)(b) of the I. E. Act, 1910 as the proposed extension cannot be granted under Section 27 ibid. The application should be accompanied by a draft amendment of the existing clause of your license regarding the area of supply, showing the details of the area of supply as proposed to be extended, together with six copies of the map duly mounted on cloth.

2. Since however the supply of electrical energy is very urgently needed for the Angol village pending the receipt of the above application and its final disposal Govt. is pleas to authorise you provisionally to extend your supply lines and to supply energy to consumers in the proposed extension subject to the expressed understanding :-

(a) that the supply of electrical energy shall not be started unless the works in the extended area are executed to the entire satisfaction of the Elec. Inspector, P. W. D. Bombay and passed by him in writing,

and

(b) that you shall remove your supply lines and other works, in the event of the proposed amendment for the extension of the area of supply not finally

sanctioned...

Copy of letter No.AMAL/BEL/NEW SCHEME dated the 17th April 1951, from the Amalgamated Electricity Co.(Belgaum), Ltd., Belgaum Branch, Bombay, to the Electrical Engineer to Government, P.W.D., Bombay. Re: Electric Supply to Angol Village.

======

In continuation of our letter of 29th ultimo we have to state as under:-

We have now heard from our Works and they inform us that no area for the Trades Estates Association has been surveyed and or no plans of the lay out are available with the Industrial Officer or elsewhere. Thus we are not in a position to draw out any estimate of the scheme.

What we understand from the Industrial Officer is that the proposal is to acquire 400 acres of land, but just now only 100 acres are to be handed over to the Association when they make the payment. These 100 acres would be at a distance of 2¼ miles away from our Thalakwadi Sub-station. The said area is outside our area of supply.

Re: Load :- We understand that for the present only 2 or 3 people are interested to have their factories there and few others may at their convenience transfer their existing factories from the town. The total load expected after a year of the completion of the scheme is about 75 K.W.

It seems it will take more than a year before anything concrete is done in this scheme by the authorities concerned, and herefore, it is too premature to state or do anything in this irection. However, we may state that, if the prospective load as estimated by us comes out to be true, there will be no objection on our part to extend our mains to that area and we will apply for that extension of our area of supply as soon as we find any substantital progress made for the scheme.

" True Copy "

Head Clerk to the
Electrical Engineer to Govt.

53 A 1 5

Below U.O.R.No.6591/36/10105 and 18117 dated the 14th March 1951, from Government in the Public Works Department.

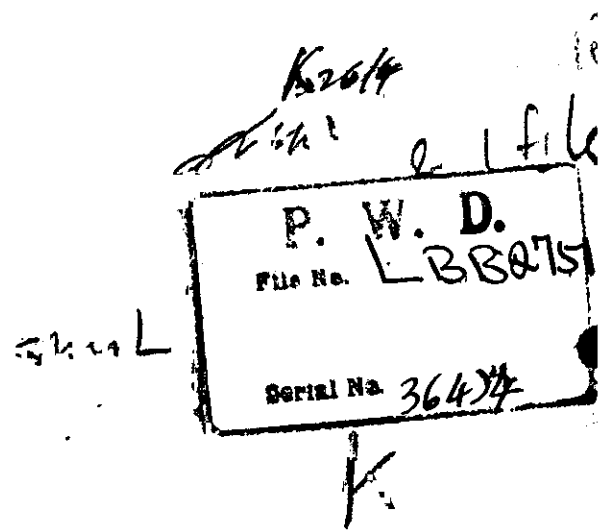
No. LRM.12/ 1034 of 1951.

Bombay, 25th April 1951.

Returned, with compliments, with U.O.R.serial No. 23413 dated the 26th March 1951.

2. The question regarding supply of electricity to Angol Village and the area reserved for the Industrial Trade Estate was taken up with the Amalgamated Electricity Co. (Belgaum), Ltd., and a copy of its letter is enclosed. Since the Angol Village and the area of the Industrial Trade Estate are contiguous, I agree with the Deputy Secretary that there should be only one agency to supply electricity at both the places and the Amalgamated Electricity Co.(Belgaum), Ltd. will be in a better position to supply power earlier and at reasonable rates than a new licensee.

P. Electrical Engineer to Govt.



P. W. D.
File No. BB875
Serial No. 3643

LBB 2751
36474

P. W. D.

K Br.

Submitted with ref. to the O.N. dated the 8-3-51 and orders of the Dy.Secy. thereon.

2. It will be seen from the remarks of the Elecl. Engr. that the Angol Village and the area reserved for the Industrial Trade Estates are contiguous and are outside the area of supply. The Elecl.Engr. agrees with the views of the Dy.Secy. that there should be only one agency to supply electricity at both the places and the Amalgamated Electricity Coy. (Belgaum) Ltd., will be in a better position to supply power earlier and at reasonable rates than any new licensee. In view of this and as the supply is urgently needed for Angol Village provisional permission may be given to the supply Coy. to extend their lines as proposed in the O.N. dated the 8-3-51.

3. As regards the supply to the area reserved for the Industrial and Trade Estates the Elecl. Engr. has contacted the supply Coy. and obtained its opinion in the matter. The Coy. opines that the scheme for development of Industrial Trade is yet at proposed stage and it will take more than a year before anything concrete is done in ~~this scheme~~ the matter by the authorities concerned, and therefore it is too premature to state or do anything in this direction. The Supply Coy. will however submit their application to extend the mains to this area as soon as they find any substantial progress made for the scheme. In the circumstances explained above, Govt. may not consider the ~~application~~ request from the Belgaum Manufacturer's Co-operative Bldg. Assocn. for the grant of separate license for the said area,

which

which is styled as "Udyam-Bag" and the Assocn. may be informed accordingly.

4. Necy. drafts put up on pp. 49, and 57 may issue, if approved.

15/5/51

GJP.
15/5/51

15/5/51

DS.

Notification for acquisition of the land for Trading Estate has already issued and instructions have also issued for handing over possession of Govt. land included in the Trading Estate Area on payment of deposit etc.

Seey.

Seey D.D

No Trading Estate can hope to make a start and progress, unless power is laid down (~~that~~) before hand. The Lefty Co. must therefore be asked immediately to get the area extended; also the Assn's request for a licence should be considered forthwith

16/5/51

I agree; the draft. to Lr. Pl. may be modified accordingly; there should also be a separate letter addressed to the Analgamated Elec Co. asking it to get the area included in its licence & to make arrangements for supply within 3 months, failing which another licence would be granted for the area

THE AMALGAMATED ELECTRICITY Co. (Bel.) Ltd.,
BELGAUM—BRANCH.

Conditions for New Motive Power Supply.

1. A requisition form should be signed by the applicant at the same time informing the Company the name of his Wiring contractor.

2. The applicant should enter into an agreement on stamped paper with the Company in the prescribed form supplied by the Company to take supply for a minimum period of two years and guarantee a minimum off-take at the rate of Rs. 5/- per month per B H.P. installed i.e. Rs. 120/- per B. H. P. for the period of two years. This will carry an interest of 3½% per annum.

3. The applicant should deposit with the Company the minimum guarantee as per para 2 immediately the Agreement is entered into.

4. The applicant should make a deposit against the cost of service line to be laid for him.

5. The applicant should pay a deposit of Rs. 10/- per B. H. P. installed against regular payment of his electricity bill.

6. **Re. : Flour Mill Installations :-** It is expected that the supply may be staggered and restricted by Government for about four hours a day.

Items 2 to 5 inclusive should be complied with by the applicant within 14 days of the notice of intimation by the Company as to whether the supply will be available to him.

7. The applicant should send to the Company the completion report of his installation through the wiring Contractor within a month from the date of the receipt of the intimation of the availability of supply as above.

8. Failure to comply with any of the above will be taken to mean that the supply is not required by the applicant, and he will have to wait for his turn when next supply is required by him.

9. (a) No transfer of power by sale, hire or otherwise will be allowed without the permission of Government.

(b) No change in the purpose for which the power was sanctioned will be allowed without the permission of Government.

c) No use of power beyond the restricted period of sanction of permits will be allowed in any case.

Subject:- Grant of Electric Licence for development of Industrial Trade Estate near Angol Village Belgaum Taluka, Belgaum District.

Dear Sir,

We are in receipt of your letter No.LBB 2751 K. dated the 6th June 1951 and have to state that we have gone through it very carefully and are constrained further to put up our strong protest against your request to the Amalgamated Electric Company Ltd., to apply to the Government for the extension of the area of supply of electricity to the Industrial Trade Estate at Belgaum.

The Amalgamated Electricity Company has not satisfied even 10% of the need of the local industries whose names have been kept up by the Company on the pending list since 1942 and this Company has never cared to take special interest in the growing needs of the local consumers. We are therefore afraid that once the supply licence is granted to this Company the progress of the member industries in the Industrial Trade Estate will be permanently hampered for want of sufficient power supply.

The conditions and rates under which this company gives power supply to industries, are uneconomic and extremely unsuitable to industries and most of the local industries are suffering from want of power supply on account of these conditions and rates. We are enclosing herewith a schedule of these conditions and rates and from them the Government will note the high and uneconomic rates and the rigourous conditions which have been adversely affecting the local industries. We do not appreciate the government view point that the electric power supply will not be cheaper from any other source than this company because we know that overhead charges in the case of Manufacturers' Association's genera-

ting the power, will be definitely less than those of the A.E. Company.

Another point that the Government should take into consideration is that the A.E. Company will not be able to stick up to any scheduled programe or the Association as to the supply of energy to its members and the distribution of the energy will be done by the company as per its sweet will and choice. The progress of the industries to which the company chooses not to supply power in time or in quantities less than the required quantites of these industries, will be greately hampered. thus for various reasons, the industrial trade estate will not be able to have a homogeneous function of its activities and due its depending position, the Association will have a permenantly crippled position in respect of a very vital factor as that of power supply

We are also surprised to see that as against the declare policy of the Government to bring important industrial and commercial activities under the functions of Co-operative organasitions, the Government in the present instance is directly safeguarding the intrest of a private agency in completedisregard or the intrest and convenience of a very important co-operative organasition here.

We therefore, request the Government to take a very serious notice of our protest against the grant of the electric licence to The A.E. Company and to grant to us an interiview to put up our views in details in this respect to the Government through our deputation.

Yours Faithfully.

Re:-Supply of electricity outside the area of supply - by the Amalgamated Electricity Company (Belgaum),Limited.

During the course of investigations of certain complaints against the above Company, it was found that the Company has been supplying electrical energy at Angolmal from October 1950, to certain premises owned by the Housing Associations there, which fall outside the area of supply, specified in its license. In this case, the Company has installed energy meters on poles, which are situated within its area of supply and it is contended by the Company that the overhead lines beyond its area of supply have been laid by the Housing Associations concerned. On inquiries it is, however, ascertained that the Company has recovered about 50% of the capital expended on laying the distributing mains, from the above Associations and further it has provided on hire the sub-meters at the individual premises and their readings are also recorded by the Company. These facts conclusively prove that the Company has been supplying energy outside the area of supply and has been recovering the charges therefor.

The Company was asked to state the authority under which th supply was extended beyond its area of supply and in reply the Company has referred to the letter No.M.S.C.S.R.466 dated the 27th September 1950 from the Collector of Belgaum, addressed to the President of Housing Association and its copy endorsed to th Secretary to Government, Public Works Department, Bombay, wherei the Collector recommended to provide electricity to the area concerned.

It is considered that the action of the Company in extendin the supply beyond its area of supply on the mere recommendation the Collector, without the specific authority from Government is highly objectionable and this fact may be brought to the notice the Company by Government.

In this connection reference is invited to Governm Public Works Department letter No.LBB-2351K/

addressed to the Company, which apparently regularises the action of the Company in giving supply to the area covered by Angolmal.

Ref. AMAL/BEL/L/1/51

BOMBAY, 19th July 19 51.

The Assistant Secretary to the Government of Bombay,
Public Works Department,
BOMBAY:

Dear Sir:

Re: Permission to supply Electric energy outside the area of supply: Amalgamated Electricity Company (Belgaum) Limited.

P65

With reference to your letter No.LBB/2751-K of the 6th June 1951, we have to state as under:-

2. In between 5th August 1950 when the Collector of Belgaum wrote to Government on the above subject and your letter dated 6th June, 1951, we had already put up our mains and supplied energy to the parties concerned in that area keeping our point of supply in our present area of supply under the Belgaum Electric License.

3 We are preparing plans and taking action for an amendment in the area of supply contained in our license to include this area and we would be submitting that application shortly.

4 In view of the above, the provisional permission is not found necessary or in the alternative the condition 4(a) be deleted as our L.T. distribution in Belgaum area is already existing and no inspection is necessary for any of our extensions from time to time as far as the L.T. distribution is concerned. The distribution in the above particular area is a L.T. distribution erected and laid at the cost of the consumers in the consumers' land.

Yours very truly,

NCJ/TSR.

Resubmitted with reference to para.3 of the O.N. p79 dated the 30-6-51.

2. Please see letter p73-75 dated the 14-6-51, from the Belgaum Manufacturers' Co-operative Bldg. Association in reply to Govt. Letter p69 dated the 6-6-51. The letter is self explanatory. Attention in this connection is invited to the office note p55-56 dated the 15-5-51 and the notes p56 from the Secy. D.D. and Secy., P.W.D.

3. It may be stated in this connection that in consultation p53 with the Elecl.Engr. it was decided that there should be one agency to supply electricity at both the places viz., Angol village and the contiguous area reserved for the Industrial Trade Estate styled as "Udyam Bag" and the Supply Co. would be in a better position to supply power, earlier and at reasonable rates than any new licensee. p56 Accordingly, and in view of the suggestion from the Secy., D.D., the Amalgamated Elecy. Co.(Belgaum) has been advised in G.L. at p.61-62 ante to extend its lines to the area reserved for the development of the Trading Estates styled as "Udyam Bag". Further, the Co. has also been requested to make arrangements for the supply of energy to the above place within 3 months from the date of the receipt of the letter, failing which Govt. would grant separate license for that area.

4. Please see para.6 of the Association's letter p75 within wherein, the Association has requested for an interview to put up their views in detail. The Dy.Secy. may kindly fill in the date and time for interviewx in the draft. p91 ante

5. Please also see letter p83 dated the 29-6-51 from the El.Engr. to Govt. which is self explanatory and letter p? dated the 19-7-1951 from the Supply Co.

p65

in reply to G.L. dated the 6-6-51. Necessary appln. accompanied by a draft amendment of the existing clause of its license regarding the area of supply, as called for in para.3 of the G.L. dated the 6-6-51, may be awaited. In the circumstances stated by the Elect. Engr, the Co. may perhaps be addressed as per draft 93 put up for approval.

p65

vide p 83

6. After issue of the draft, the Co.'s letter dt. the 19-7-51 may be shown unofficially to the El.Engr. to Govt. for remarks if any.
